

## A new generation of PCBs without the usual surcharge

**0.1mm Tracks, 0.2mm Drills, starting from 4 WD standard production time**

Multi-CB specializes in the smallest structures, with over 30% of HDI orders. State-of-the-art production facilities enable high-tech parameters without the usual surcharge.

Multi-CB Standard 0.1mm Tracks / Space	Usual Standard 0.15mm Tracks / Space
 <p>▲ 0.100mm ▶ 0.150mm</p>	<p><i>Fit to the width of 1.1mm: 6 tracks with 0.1mm but only 4 tracks with 0.15mm</i></p>
Multi-CB Standard Via 0.2mm / Restring 0.1mm	Usual Standard Via 0.3mm / Restring 0.15mm
 <p>0.150mm 0.3mm 0.150mm</p> <p>0.1mm 0.2mm 0.1mm</p> <p>Via</p>	<p><i>Via 0.2mm / Restring 0.1mm requires less than 50% of the area as Via 0.3mm / Restring 0.15mm</i></p>

### Your Multi-CB advantages in detail:

- ✓ Shorter layout time possible
- ✓ Reduction of frequent relocations of components possible
- ✓ Reduced number of layers possible
- ✓ Higher packing density
- ✓ Practical technical advice from Brunthall near Munich & Poole near London
- ✓ Optimal for HDI and BGA
- ✓ Short production time starting from 4WD Standard
- ✓ Lower price
- ✓ Miniaturization increases your competitiveness
