

## PCB - Christmas-Schedule 2023

Our PCB calculator always shows you the estimated dispatch date!

From **27. to 29.12.23 (inclusive)** our offices in Germany and Great Britain will be **closed**.  
The highly automated production will continue to operate with a limited capacity.

- The last day of dispatch is 21.12.23.**
- Our office is staffed until 22.12.23 - 4:30 pm (CET).
- We will return on 02.01.24.
- The first dispatch will take place starting from 03.01.24.**

### ► Additional manufacturing between bank holidays

Our highly automated production operates limited **between Christmas and New Year**. The working days gained will be **passed on to you at no extra charge**. Only possible for orders placed **until 22.12.23, 9:00 am (CET)**.

For orders placed after 22.12.23 - 9:00 am (CET) the 02.01.24 counts as first working day.  
Our PCB calculator (<https://portal.multi-circuit-boards.eu>) always shows you the estimated dispatch date!

### ► Please note

The day of the order is considered the first working day if the order including complete and correct data is received by 9:00 am (CET) by us. If the dispatch date is after the last dispatch day 2023, the dispatch will be from 03.01.2024. If you wish a later delivery (e.g. 08.01.24), please indicate this in the comment field of your Printed Circuit Board or SMD-Stencil.

#### Example for the working days at the turn of the year:

6 WD order on 21.12.23 before 9:00 am (CET).  
Dispatch on Wednesday 03.01.24.

Example for **order before**, and **dispatch after** Christmas / New Year.
