

PFAS - Declaration of Compliance

07.08.2023

Declaration on per- and polyfluoroalkyl substances (PFASs)

Per- and polyfluorinated alkyl substances (PFASs) are chemical compounds that are widely used in many industries due to their water- and stain-repellent properties. However, concerns have been raised in recent years about the potential risks of PFASs to humans and the environment. To minimise these risks, five European countries - Denmark, Germany, the Netherlands, Norway and Sweden - have submitted a "restriction dossier" to the European Chemicals Agency (ECHA), which aims to ban more than 10,000 PFAS compounds, including fluoroplastics such as PVDF, ECTFE, PTFE or PFA.

Based on current up-to-date information received in good faith from our suppliers, we confirm that all products, supplied by Multi Circuit Boards Ltd. do not contain per- and polyfluoroalkyl substances (PFAS).

Conformity with the following directives can also be confirmed:

- 2011/65/EU - RoHS 2
- 2015/863/EU - RoHS3
- 1907/2006/EG - REACH / SVHC
- 2006/122/EG - PFOS
- 2019/1021/EU - POP

Multi Circuit Boards Ltd.

These statements are based on the current state of our knowledge and experience. For factors that are beyond our knowledge and control, no warranty and liability can be assumed.
